Vice Chair AASHTO COMP TS 5b
Committee on Materials & Pavements—COMP

2018 Annual Meeting

August 5–10 | The Westin Cincinnati, Ohio

Committee on Maintenance
2018 Annual Meeting

JULY 21–26, 2018
Charlotte, North Carolina
• Each committee has some vested interest
• Publications, guidelines, specifications moving in different directions could be problematic
• Some direction was needed
AASHTO Committee on Maintenance
Administrative Resolution
Title: Establish a Collaborative Review Process for Pavement Preservation Treatment
Construction Guidance Specifications

WHEREAS, The AASHTO Highways Committee on Maintenance is seen as a leading technical
resource for extending pavement life through the timely use of pavement preservation, a proven
strategy used throughout the nation to keep highways, roads, and streets in good condition; and

WHEREAS, Many AASHTO member departments look to their maintenance staff to construct
pavement preservation treatments using in-house personnel, or when contracted, perform
construction inspection; and

WHEREAS, The AASHTO TSP-2 has created a Pavement Preservation Emulsion Task Force
and a Concrete Pavement Preservation Task Force consisting of technical experts from
AASHTO member agencies, material suppliers, contractors, consultants, academia, and FHWA
to develop specification documents for Design, Materials, and Construction that will improve the
reliability and performance of pavement preservation treatments; and

WHEREAS, The Pavement Preservation Emulsion Task Force and Concrete Pavement
Preservation Task Force have submitted and received approval on many Design and Material
Specifications from the Committee on Materials and Pavements; and

WHEREAS, AASHTO approved construction guidance specifications for preservation
treatments are needed by agencies and industry alike to ensure uniform application techniques
and construction practices; and

WHEREAS, The Committee on Materials and Pavements has recently formed a Technical
Subcommittee-5b that routinely meets to review Bridge and Pavement Preservation
specifications related to design and materials; and

WHEREAS, Maintenance input is critical in the review and approval process of construction
guidance specifications for pavement preservation treatments; and

WHEREAS, The AASHTO member departments can be best served by a collaborative effort
with the Committees on Maintenance (COM), Materials and Pavements (COMP), and
Construction (COC) to implement a thorough and timely review process for pavement
preservation construction guidance specifications; and

NOW, THEREFORE, BE IT RESOLVED, That the AASHTO Highways Committee on
Maintenance recommends to the Highways and Streets Council of the AASHTO Transportation
Policy Forum to assign to the Committee on Materials and Pavements, Technical Subcommittee
5b, for a five year period, the responsibility for reviewing, maintaining, and publishing pavement
preservation materials standards and pavement preservation treatment construction guidance
specifications to the corresponding publications (e.g., AASHTO Materials Book or AASHTO
Construction Guide); and that the COMP Technical Subcommittees 5b add 3 to 5 voting
representatives from each of the Committees on Maintenance and Construction for the
development and review of pavement construction guidance specifications.
NOW, THEREFORE, BE IT RESOLVED, That the AASHTO Highways Committee on Maintenance recommends to the Highways and Streets Council of the AASHTO Transportation Policy Forum to assign to the Committee on Materials and Pavements, Technical Subcommittee 5b, for a five year period, the responsibility for reviewing, maintaining, and publishing pavement preservation treatment construction guidance specifications; and that the COMP Technical Subcommittee 5b add 3 to 5 voting representatives from each of the Committees on Maintenance and Construction for the development and review of preservation construction guidance specifications.
Resolution Passed

• NOW, THEREFORE, BE IT RESOLVED, That the AASHTO Highways Committee on Maintenance recommends to the Highways and Streets Council of the AASHTO Transportation Policy Forum to assign to the Committee on Materials and Pavements, Technical Subcommittee 5b, for a five year period, the responsibility for reviewing, maintaining, and publishing pavement preservation treatment construction guidance specifications; and that the COMP Technical Subcommittee 5b add 3 to 5 voting representatives from each of the Committees on Maintenance and Construction for the development and review of preservation construction guidance specifications.
NOW, THEREFORE, BE IT RESOLVED, That the AASHTO Highways Committee on Maintenance recommends to the Highways and Streets Council of the AASHTO Transportation Policy Forum to assign to the Committee on Materials and Pavements, Technical Subcommittee 5b, for a five year period, the responsibility for reviewing, maintaining, and publishing pavement preservation treatment construction guidance specifications; and that the COMP Technical Subcommittee 5b add 3 to 5 voting representatives from each of the Committees on Maintenance and Construction for the development and review of preservation construction guidance specifications.
COMP Technical Subcommittee 5b
Bridge and Pavement Preservation

• 3 – 5 Members from Committee on Construction
  • Attend mid-year web meeting
  • Review Preservation Construction Guide Specs
    • Preservation Materials Specs
    • Preservation Design Specs
  • Attend COMP Meeting
  • Participate in the review process
